October 16, 2020

Multimodal Planning Division Director:

Greg Byres, P.E.

Current Planning Activities

- Tier I, Environmental Impact Statements for Major Projects
- Design Concept Report for I-10, L-202 to SR 387
- Progress with P2P for 2022-2026 Program

Tier I EIS For Major Projects

- I-11 - Draft EIS comments being addressed and Final EIS is being prepared. Planned publication of Final EIS spring of 2021.
- North/South Corridor - Draft EIS comments being addressed and Final EIS is being prepared. Planned publication of Final EIS spring of 2021.
- Sonoran Corridor - Draft EIS has been completed and is being prepared for public comment and public hearings at the beginning of December.

Design Concept Report for I-10, L-202 to SR 387

- Through coordination with ADOT, MAG and the Gila River Indian Community (GRIC), an alternatives plan has been created and is currently going through review
- Final considerations of the alternatives plan will include an executive meeting with ADOT, MAG and GRIC. FHWA has also been an active stakeholder in the planning stages of the project.
- Public review and comments on the alternative plan is scheduled for later this year.

P2P Progress for 2022-2026 Program

- District workshops have kicked off this week and will continue over the next couple of weeks.
- Upon completion of the District workshops final scoring can be completed and project priorities will be set.
