Welcome to a meeting of the Arizona State Transportation Board. The Transportation Board consists of seven private citizen members appointed by the Governor, representing specific transportation districts. Board members are appointed for terms of six years each, with terms expiring on the third Monday in January of the appropriate year.

## BOARD AUTHORITY

Although the administration of the Department of Transportation is the responsibility of the director, the Transportation Board has been granted certain policy powers in addition to serving in an advisory capacity to the director. In the area of highways the Transportation Board is responsible for establishing a system of state routes. It determines which routes are accepted into the state system and which state routes are to be improved. The Board has final authority on establishing the opening, relocating, altering, vacating or abandoning any portion of a state route or a state highway. The Transportation Board awards construction contracts and monitors the status of construction projects. With respect to aeronautics the Transportation Board distributes monies appropriated to the Aeronautics Division from the State Aviation Fund for planning, design, development, land acquisition, construction and improvement of publicly-owned airport facilities. The Board also approves airport construction. The Transportation Board has the exclusive authority to issue revenue bonds for financing needed transportation improvements throughout the state. As part of the planning process the Board determines priority planning with respect to transportation facilities and annually adopts the five year construction program.

## CITIZEN INPUT

Citizens may appear before the Transportation Board to be heard on any transportation-related issue. Persons wishing to protest any action taken or contemplated by the Board may appear before this open forum. The Board welcomes citizen involvement, although because of Arizona's open meeting laws, no actions may be taken on items which do not appear on the formal agenda. This does not, however, preclude discussion of other issues.

## MEETINGS

The Transportation Board typically meets on the third Friday of each month. Meetings are held in locations throughout the state. In addition to the regular business meetings held each month, the Board also conducts three public hearings each year to receive input regarding the proposed five-year construction program. Meeting dates are established for the following year at the December organization meeting of the Board.

## BOARD MEETING PROCEDURE

Board members receive the agenda and all backup information one week before the meeting is held. They have studied each item on the agenda and have consulted with Department of Transportation staff when necessary. If no additional facts are presented at the meeting, they often act on matters, particularly routine ones, without further discussion. In order to streamline the meetings the Board has adopted the "consent agenda" format, allowing agenda items to be voted on en masse unless discussion is requested by one of the board members or Department of Transportation staff members.

## BOARD CONTACT

Transportation Board members encourage citizens to contact them regarding transportation-related issues. Board members may be contacted through the Arizona Department of Transportation, 206 South 17th Avenue, Phoenix, Arizona 85007, Telephone (602) 712-7550.

## NOTICE OF BOARD MEETING OF THE STATE TRANSPORTATION BOARD

Pursuant to A.R.S. Sec. 38-431.02, notice is hereby given to the members of the State Transportation Board and to the general public that the State Transportation Board will hold a Special Telephonic meeting open to the public on Friday, August 18, 2017 at 9:00 a.m. at the Arizona Department of Transportation Administration Building, Director's Conference Room #139, 206 South 17th Avenue, Phoenix, AZ 85007. The Board may vote to go into Executive Session to discuss certain matters, which will not be open to the public. Members of the Transportation Board will attend either in person or by telephone conference call. The Board may modify the agenda order, if necessary.

### EXECUTIVE SESSION OF THE STATE TRANSPORTATION BOARD

Pursuant to A.R.S. 38-431.02, notice is hereby given to the members of the Arizona State Transportation Board and to the general public that the Board may meet in Executive Session for discussion or consultation of legal advice with legal counsel at its meeting on Friday, August 18, 2017, relating to any items on the agenda. Pursuant to A.R.S. 38-431.03 (A), the Board may, at its discretion, recess and reconvene the Executive Session as needed, relating to any items on the agenda.

### CIVIL RIGHTS

Pursuant to Title VI of the Civil Rights Act of 1964, and the Americans with Disabilities Act (ADA), ADOT does not discriminate on the basis of race, color, national origin, age, sex or disability. Persons that require a reasonable accommodation based on language or disability should contact the Civil Rights Office at (602) 712-8946 or email [CivilRightsOffice@azdot.gov](mailto:CivilRightsOffice@azdot.gov). Requests should be made as early as possible to ensure the state has an opportunity to address the accommodation.

*De acuerdo con el título VI de la Ley de Derechos Civiles de 1964 y la Ley de Estadounidenses con Discapacidades (ADA por sus siglas en Inglés), el Departamento de Transporte de Arizona (ADOT por sus siglas en Inglés) no discrimina por raza, color, nacionalidad, edad, género o discapacidad. Personas que requieren asistencia (dentro de lo razonable) y sea por el idioma o por discapacidad deben ponerse en contacto con 602.712.8946. Las solicitudes deben hacerse lo más pronto posible para asegurar que el equipo encargado del proyecto tenga la oportunidad de hacer los arreglos necesarios.*

### AGENDA

A copy of the agenda for this meeting will be available at the office of the Transportation Board at 206 S. 17th Avenue, Room 135, Phoenix, Arizona at least 24 hours in advance of the meeting.

### ORDER DEFERRAL AND ACCELERATIONS OF AGENDA ITEMS, VOTE WITHOUT DISCUSSION

In the interest of efficiency and economy of time, the Arizona Transportation Board, having already had the opportunity to become conversant with items on its agenda, will likely defer action in relation to certain items until after agenda items requiring discussion have been considered and voted upon by its members. After all discussion items have been acted upon, the items remaining on the Board's agenda will be expedited and action may be taken on deferred agenda items without discussion. It will be a decision of the Board itself as to which items will require discussion and which may be deferred for expedited action without discussion.

The Chairman will poll the members of the Board at the commencement of the meeting with regard to which items require discussion. Any agenda item identified by any Board member as one requiring discussion will be accelerated ahead of those items not identified as requiring discussion. All such accelerated agenda items will be individually considered and acted upon ahead of all other agenda items. With respect to all agenda items not accelerated, i.e., those items upon which action has been deferred until later in the meeting, the Chairman will entertain a single motion and a single second to that motion and will call for a single vote of the members without any discussion of any agenda items so grouped together and so singly acted upon. Accordingly, in the event any person desires to have the Board discuss any particular agenda item, such person should contact one of the Board members before the meeting or Linda Priano at 206 South 17th Avenue, Room 135, Phoenix, Arizona 85007, or by phone (602) 712-7550. Please be prepared to identify the specific agenda item or items of interest.

Establish New Project

**26. JUSTIFICATION:**

This is a minor program project to reduce rear-end crashes due to NB left-turn traffic backing into through lanes. Project will increase left-turn lane capacity by extending each of the turn lanes. In addition, the Railway-Highway Crossing Safety Program proposes to include railroad intersection safety improvements at Bethany Home Road and US 60. Improvements include widening the existing roadway to construct a raised median that will allow the installation of railroad automatic gates and six lanes of 11 feet. It also includes relocation a traffic signal pole and mast arm. As a result of the widening, existing curb and gutter have to be removed and reconstructed and a BNSF cantilever structure has to be relocated.

**25. DESCRIPTION OF REQUEST:**

Increase design budget

Change project name.

**26. JUSTIFICATION:**

Additional funds are required to complete the design for the bridge.

Funding to secure a consultant to perform a constructability review was originally underfunded. Moreover, coordination between the design team and Tonto National Forest regarding a potential bridge fence is necessary. The environmental consultant also needs funding to continue biological and 404 surveys within the project limits, as well as provide historical bridge documentation. Also a consultant is needed to provide a retaining wall with a specialized foundation design.

Change project name to "Pinto Creek Bridge".

**25. DESCRIPTION OF REQUEST:**

Increase Budget.

**26. JUSTIFICATION:**

This project is located on US 191 in Graham County, approximately 8 miles north of US 70.

The current 5-Year Program shows \$5.9 million for construction, based on the Stage IV estimate. This estimate did not include mobilization costs, and calculated the ICAP at the lower FY17 rate. Also, it was determined after the Stage IV submittal that tapers entering and exiting passing lanes need to be extended, resulting in increased milling and pavement costs.

ICAP is included in the estimate.

**25. DESCRIPTION OF REQUEST:**

Increase project budget

**26. JUSTIFICATION:**

The current five-year program includes \$40 Million for construction. The current estimate recapitulation is \$48.3 Million. The increase is caused by adding approximately 24 miles of fiber optic trunkline, updating unit prices to be current, and an increase in ICAP. This has led to a need for an additional \$9 Million to advertise the project in September 2017 (FY18/Q1).

ICAP is included in the estimate.

**25. DESCRIPTION OF REQUEST:**

Establish new Project.

**26. JUSTIFICATION:**

Tasks to be conducted under the Statewide Stormwater Protection Project include: wet weather monitoring, system mapping, Stormwater plan regulatory updates, update and development of guidance and standard work documents.

The task are required for regulatory compliance with the ADOT Statewide Municipal Separate Storm Sewer System (MS4) Permit and other water quality regulations. Tasks listed are specific actions required by the permits and provide data and information to inform whether ADOT is in compliance with the permits and associated Surface Water Quality Standards.

Update and development of guidance documents will be used in preparation for NEPA Assignment.
