Subject: Former US Highway 80 State Historic Route Recommendations

Dear Director Halikowski:

In accordance to Arizona Administrative Code R17-3-803, ADOT has prepared the attached report which evaluates those portions of former US Highway 80 within the State Highway System for consideration to be designated a State Historic Road. This is in response to an application submitted by the Tucson Historic Preservation Foundation to designate former US Highway 80 in Arizona as a State Historic Road. The ADOT report, recommendations, and Arizona Historical Advisory Commission letter were submitted to the members of the Parkways, Historic, and Scenic Roads Advisory Committee (PHSRAC). Based on the evaluations contained in the ADOT report, and after consultation with the Arizona Historical Advisory Commission the following sections of current State Highways totaling 217.8 miles are recommended to be presented to the State Transportation Board for designation as a State Historic Road for former US Highway 80.

State Route 80:

- MP 415.4 (AZ/NM State Line) to MP 367.1 (Douglas)
 - Route continues on the local system between MP 367.1 to MP 366.1.
- MP 366.1 to MP 365.5
- MP 365.5 to MP 357.3 – Although this section does not retain its historical integrity, it is recommended to designate this section for continuity.
- MP 357.3 to MP 341.5 (Bisbee)
 - Route continues on the local system between MP 341.5 to MP 338.7.
- MP 338.7 to MP 317.4 (Tombstone)
 - Route continues on the local system between MP 317.4 to MP 316.8.
- MP 316.8 to MP 293.3 (Benson)

State Route Business 10 (Benson):

- MP 305.7 to MP 303.5 (Junction with I-10)

There will be a gap in the route along Interstate 10 between Benson and Tucson. The route continues on the local system within the City of Tucson until it intersects with State Highway 77 at the intersection of Miracle Mile Road and Oracle Road.

State Route 77 (Tucson):

- MP 69.5 (intersection of Miracle Mile and Oracle Road) to MP 91.1 (Junction with State Route 79) – Although this section does not retain its historical integrity, it is recommended to designate this section for continuity.

State Route 79:

- MP 91.1 (Junction with State Route 77) to MP 132.3 (Junction with State Route Business 79)

State Route Business 79 (Florence):

- MP 132.2 (Junction with State Route 79 at MP 132.3) to MP 134 (Junction with State Route 79 at MP 134)

State Route 79:

- MP 134 (Junction with State Route Business 79 at MP 134) to MP 150.1 (Junction with US Highway 60)

US Highway 60:

- MP 212.2 (Junction with State Route 79) to MP 199 (Junction with Old West Highway) – Although this section does not retain its historical integrity, it is recommended to designate this section for continuity.
 - Route continues on the local system through Phoenix from US Highway 60 to State Route 85.

State Route 85:

- MP 150.5 (Intersection with Maricopa County Route 85) to MP 149.5 (Intersection with Hazen Road) - Although this section does not retain its historical integrity, it is recommended to designate this section for continuity.
 - Route continues on the local system between MP 149.5 of State Route 85 and MP 120.2 of State Route Business 8 in Gila Bend.

State Route Business 8: (Gila Bend)

- MP 120.2 to MP 117.2 (Interstate 8)

There will be a gap in the route along Interstate 8 between Gila Bend and Yuma. The route continues in Yuma on the local system until it reaches the California State Line.

Sincerely,

Todd A. Emery
